College Credit Plus (CCP)

A Guide to College Credit Plus for Students & Families

Ohio's College Credit Plus program can help you earn college and high school credits at the same time by taking college courses from community colleges or universities. The purpose of this program is to promote rigorous academic pursuits and to provide a wide variety of options to college-ready students. Taking a college course from a public college or university can be free. That means no cost for tuition, books, or fees. If you choose to attend a private college or university, you may have limited costs.

CVCA students can choose to attend any college in Ohio that offers a course that would benefit your future. This could include **college campus courses** taken face-to-face on the college campus, **online courses**, or **dual credit courses** offered at CVCA.
